

AVIDHIFI

EVO THREE™

"Musical purity that will captivate"

AVIDHIFI's EVO THREE Loudspeakers deliver a vast soundstage, and a level of detail you would not think possible from their proportions. The ability of our loudspeakers to reproduce precise dynamics will have you hearing your cherished recordings for the first time all over again.

Sweet sounding soft dome tweeters reveal the highest levels of clarity with elevated Bass drivers for less low frequency distortion, keeping them phenomenally fast, clear and tight.

The Bass is optimised by reflex loading from below the cabinet to reduce room positioning issues and our TMT™ (Tuned Mass Technology) diverts harmful vibration away from the drive units and cabinet, leaving you with a musical purity that is both riveting and captivating.

SPECIFICATION

Frequency Response	32Hz - 20kHz +/-3dB
Sensitivity	87dB / 2.83V/1m
Recommended Power	40W - 200W
Impedance	4Ω
Crossover Topology	2.5-way, 2nd Order
Cabinet Construction	Aluminium Plate front and rear. MRMDF Precision Hand-crafted Cabinet
Dimensions	1003 x 290 x 449 (mm) HxWxD
Finishes	Black anodised front & rear baffle (ALL) Black or White high gloss cabinet
Net weight	33kg (each)
Packaging	430 x 620 x 1110 (mm) WxDxH (each)
Shipping weight	78kg (pair)

DRIVER CONFIGURATION

HF	1 x 28mm Acuflex™ hand coated silk dome
MF/LF	2 x 160mm (6") Titanium Advanced Woofer
