

AVIDHIFI

VELSONIC™

UNCOMPROMISED PURITY

The Velsonic represents the pinnacle of AVID phono stage design, evolving our established philosophy through refinement rather than reinvention. Retaining the sonic character that defines its lineage, it introduces advanced circuit topologies and carefully matched components to deliver even greater musical performance.

Despite its significant advancement, Velsonic remains resolutely analogue, free from noise-inducing digital circuitry and unnecessary features. Its low-noise architecture focuses purely on preserving the integrity of the musical signal, with extensive gain and loading options allowing precise matching to any cartridge and system.

Refined power regulation, bespoke components and meticulous engineering combine to create a phono stage that prioritises emotional connection over specifications alone, allowing listeners to simply rediscover the joy and realism of music.

SPECIFICATIONS	
NOISE	<-81dB MM <-67 dB MC
DISTORTION	<0.001%
RIAA	5Hz - 70kHz \pm 0.5dB
GAIN	35dB-40dB-45dB-50dB-55dB-60dB 65dB-70dB
RESISTANCE	10R-30R-100R-200R-300R-400R-500R 800R-1K-5K-47K
CAPACITANCE	100pf-200pf-500pf-1.5nf-10nf-20nf
SUBSONIC FILTER	1st ORDER SLOPE, -3dB@10Hz
OUTPUT IMPEDANCE	20 Ohms
POWER SUPPLY	DOUBLE REGULATED WITH 300va TRANSFORMER
VOLTAGE INPUT	100-240vac 50/60Hz 10 WATTS MAX
DIMENSIONS	463 x 338 x 100mm (W x D x H)
NET WEIGHT	CONTROL UNIT -12.2Kg (27Lbs) PSU - 14.9Kg (33Lbs)

Bicton Industrial Park, Kimbolton, Huntingdon, Cambs. PE28 0LW ENGLAND
